GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They cure with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmanee Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

OREGON AND CHINESE WHEAT.—Just received a few sacks of the above new and superior seed grain, from H. R. Smelzer, esq., of Bloomfield farm. The Oregon is a red kernel wheat, and the Chinese a beautiful plump white kernel. These extraordinary varieties produced Mr. S. last season 45 to 50 bushels of wheat per acre, weighing 63 to 68 lbs. per bushel.

These extraordinary varieties produced Mr. S. last season 45 to 50 bushels of wheat per acre, weighing 63 to 68 lbs. per bushel.

"Orgon and China wheat.—There have been left at our office two new species of wheat—one called 'Oregon,' the other 'China.' It was taken from the Bioomfield estate, belonging to Henry E. Smeltzer, near Middletown, Frederick county, Maryland. The 'Oregon' wheat was found or discovered by a missionary travelling through that territory, who breught it to this country in 1839. Mr. Smeltzer this year raised from four and a quarter acres, 212 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a beautiful red color, with smooth chaff, heads from 5 to 6 inches long, and average from 90 to 130 grains to the head. It is believed it will yield at least 20 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 20 grains more to the head. The history of the China wheat is rather singular. A few heads were found in a box of China-ware imported from the north of China: and the heads being so very large and compact, the discoverer was induced to plant them. Mr. S. informs us that last year he rused 421 bushels per acre with it, and this year 47 bushels per acre. This is a beautiful white wheat, and has heads or ears about as long as the 'Oregon' wheat, and about the same sufficer of grains to the head. The 'China' wheat is of the early kind, and, so far, has not been intered by smut. mildew, or fty."—Nen.

The faculty are gratified in being able to inform the community, that, in addition to the laboratory already attached to the college, arrangements have been made for opening a dental infirmary, which will go into operation the ensuing session, and be conducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

This infirmary, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destitute poor, that medical infirmaries do to diseases of other parts of the body.

All operations on the mouth and face will also be performed without charge.

This infirmary, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destitute poor, that medical infirmaries do to diseases of other parts of the body.

It will also add greatly to the practical facilities which the college already furnishes the student, by giving him not only a better opportunity of daily witnessing the various operations, but also of taking part himself, and thus acquiring that practical tacs oceaential to the skillful dentist.

Ticket of each professor, \$25; matriculation, \$5.
Demonstrator's ticket, \$10; dissecting ticket, \$10.
Diploma, \$30.

of Washington, comprising the whole of the tract called "Bayly's Purchase," and part of a tract called "Fortune Enlarged,"—containing, in the whole, about thirteen hundred and fifty acres.

The land has recently been carefully re-surveyed and divided into twenty lots, of convenient location, varying in size from 24 to 120 acres each. These lots will be sold separately. For a particular description of them, persons decirous of purchasing are referred to plats of the land, now ready for distribution at the auction roams. Several of the lots present excellent locations for market-farms; and the entire body of the land, from its quality and situation, is well worthy the attention of purchasers. The deeds above referred to are the following, viz. 1793, December 21, William Berry Warman to James Greenleaf; recorded among the land records of Washington county, in book A, folio 464. 1794, March 21, George French et al. to James Greenleaf, recorded as aforesaid in Liber B, No. 3, folio 445, &c. 30th September, 1796, James Greenleaf, recorded as aforesaid in Liber B, No. 3, folio 160. 23d March, 1797, George Simpson to Henry Pratt et al.; recorded in Liber C, folio 192. 28th February, 1798, N. Maddox, sheriff, to Wm. H. Dorsey et al.; recorded in Liber D, No. 4, folio 68, October 17, 1837, H. Pratt, surviving trustee, to B. Tilghman and deed endorsed, dated October 18th, 1837, B. Tilghman to H. Pratt, J Dundaa, and C. S. Miller, in trust, de.; recorded in Liber W. B., No. 71, folio 111, &c.

In making the sale, the undersigned, acting as sole surviving trustee, will convey such title only as is vested in him by the above-recited convey-ances.

. OF WILD CHERRY,

OF WILD CHERRY,

The great remedy for consumption, colds, coughs, spitting of blood, bronchitis, difficulty of breathing, asthma, pain in the side and breast, whooping-cough, croup, and all diseases of the liver and lungs, broken constitution, &c.

THE above is the original and only genuine I preparation from this valuable tree, and has won its way to public favor by its unparalleled auccess in curing all diseases of the lungs, notwithstanding the many articles prepared by persons who have no knowledge of the science of medicine, in theory or practice; and some, more readily to deceive the unsuspecting, use a part of the name of the original preparation, such as "balaam of wild cherry," "Phoenix balsam of wild cherry," "blassm of wild cherry and camfrey," &c.—all sprung up with a mercenary view, after Dr. Swayne's compound sirup of wild cherry had won a reputation in the healing art never to be forgotten by many a once cheerless fireside. Therefore the public should be on their guard, and purchase none but the original preparation, which is daily performing such astonishing cures in pulmonary complaints, after all remediess had failed, and the patients given up as

wonderful remedy:

Robert Glenn, sieward of the almshouse net Frankford, teatifies to the efficacy of Dr. Swayne compound sirup of wild cherry, in curing Valet tine Chapman, one of the most aggrevated cases of diseased lungs which has ever been places up record, after every other remedy had failed, and his physician had given him up as incurable.

Mrs. Brown, corner of Second street and German town road, Philadelphia, effectually cured of diseated lungs and the symptoms of incipient consumition, by using four bottles of Dr. Swayne's corpound sirup of wild cherry.
